

HEALTHY FOR LIFE

UVC LIGHTFORCE

44.5" MODEL-B

Mobile Ultraviolet Sanitizing

The UVC Lightforce is a mobile, self-contained germicidal cleaning device that utilizes proven ultraviolet emitting radiation technology to help reduce and eliminate bacteria, viruses and other pathogens on environmental surfaces. The UVC Lightforce is the most economical and affordable industrial full-sized unit on the market. Sanitize your entire facility efficiently and effectively.

- Eight (8), 75 watt high-output lamps positioned octagonally
- Built-in timer with remote control allows for safe operation of the unit
- Activate the unit from outside of the area to be sanitized
- Effective in eliminating 99.9% of surface contamination and pathogens

UVC Lightforce delivers a powerful UV dosage that is 99.9% effective in killing/inactivating pathogens. This economical and low maintenance solution is easy to transport and has an ultra-quiet cycle of operation.
